EXECUTIVE SUMMARY

Results-driven IT Infrastructure Lead & Systems Manager with over 8 years of enterprise IT experience spearheading high-availability server virtualization, hybrid identity governance, and mission-critical disaster recovery pipelines. Demonstrated track record maintaining 99.9% uptime across multi-site VMware ESXi/vCenter clusters, governing Microsoft 365 / Entra ID under Zero-Trust frameworks, and automating Commvault backup operations under stringent pharmaceutical audit standards (GxP). Adept cross-functional team lead experienced in enforcing strict SLA benchmarks, managing multi-tier SAN/NAS storage, executing Root Cause Analysis (RCA), and optimizing infrastructure Total Cost of Ownership (TCO).

CORE COMPETENCIES & TECHNICAL ARSENAL

- **Virtualization & Systems:** VMware ESXi & vCenter 7.x/8.x, Windows Server (2016–2022), Linux (CentOS, Ubuntu), Hyper-V, High Availability (HA/DRS)
- **Cloud & Identity Governance:** Microsoft Entra ID (Azure AD), Microsoft 365, Exchange Online, Hybrid Sync (Azure AD Connect), Conditional Access, MFA, IAM
- **Storage & Disaster Recovery:** Enterprise SAN/NAS (iSCSI/NFS/FC), Commvault Backup & Recovery, Replication, DR Automation, RTO/RPO SLA Adherence
- **Security & Compliance:** Endpoint Detection & Response (EDR/XDR), SentinelOne, Vulnerability Mitigation, GxP Audit Readiness, GPO Hardening, Zero-Trust
- **Networking & Core Services:** Active Directory Domain Services (AD DS), DNS, DHCP, Enterprise VPN, TCP/IP, Routing/VLANs, Websense URL Filtering
- **ITSM & Automation:** ITIL v4 Framework, Incident & Change Management, SLA Tracking, Vendor & Asset Lifecycle, Shell Scripting, Jenkins CI/CD, Lansweeper.

PROFESSIONAL EXPERIENCE

IT Executive (Infrastructure & Operations) | Orchid Pharma Ltd — *Chennai, India (Jan 2024 – Present)*

- **Enterprise Virtualization & High Availability:** Direct multi-site VMware ESXi and vCenter clusters supporting 50+ virtual machines and physical host nodes; engineered failover clustering and resource balancing to sustain 99.9% application uptime.
- **Cloud Identity & Zero-Trust Architecture:** Govern Microsoft 365 and Microsoft Entra ID (Azure AD) hybrid infrastructure; designed granular Conditional Access policies, geofencing parameters, and enterprise-wide MFA enforcement for 1,000+ active directory accounts.
- **Disaster Recovery & Business Continuity (BCP):** Architect end-to-end Commvault enterprise backup strategies covering on-premises SAN/NAS and cloud tiers; coordinate quarterly live DR restoration drills to satisfy strict pharmaceutical regulatory compliance while consistently meeting RPO (<1 hr) and RTO (<4 hrs) targets.
- **Security Posture & Compliance Audits:** Spearhead endpoint defense across company-wide endpoints using enterprise EDR/XDR platforms; automate patching cycles, lead security hardening via Active Directory GPOs, and act as primary technical coordinator for GxP/regulatory IT compliance audits.
- **Incident Governance & SLA Management:** Manage critical P1/P2 incident escalations, conduct structured Root Cause Analysis (RCA), and lead post-mortem reviews to enforce a 98%+ SLA resolution rate across ITSM service tickets.
- **Automation & Team Mentorship:** Supervise and develop L1/L2 infrastructure engineers; instituted standardized operating procedures (SOPs) and introduced Jenkins task automation and Shell scripting to eliminate repetitive administrative overhead by 30%.

Technical Analyst (Cloud Infrastructure & Monitoring) | Norwin Technologies — *Chennai, India (Jan 2022 – Feb 2024)*

- **Public Cloud Monitoring & Availability:** Monitored multi-tenant AWS and Microsoft Azure cloud environments; proactively diagnosed compute bottlenecks, memory overutilization, and network latency to prevent client SLA breaches.
- **Client Engagement & Operational Reviews:** Served as technical liaison for enterprise clients; facilitated weekly service review meetings, resolved complex infrastructure escalations, and delivered technical remediation plans.
- **Capacity Planning & Tableau Analytics:** Synthesized infrastructure telemetry and monthly utilization trends via Tableau dashboards, delivering executive capacity reports that directly informed client infrastructure rightsizing.

Technical Support Engineer (Systems & Operations) | Orchid Pharma Ltd — *Chennai, India (Aug 2019 – Jan 2022)*

- **Systems & Domain Administration:** Administered on-premise Windows/Linux server fleet, Active Directory objects, DNS/DHCP scopes, and network print/file servers across corporate and manufacturing locations.
- **Network Security & Backup Operations:** Enforced perimeter security and corporate web access policies through Websense URL filtering; managed daily Commvault agent backup jobs and data verification runs across mission-critical local shares.
- **Endpoint Management & Enterprise ERP:** Orchestrated large-scale OS imaging, driver distribution, and compliance patching using SCCM; provided technical resolution for desktop integrations with SAP Material Management (MM).
- **Talent Development & Technical Onboarding:** Designed onboarding technical training documentation, trained 40+ corporate personnel on IT policies, and participated in hiring assessment panels for tier-1 support roles.

EARLIER CAREER TRACK

- **Digital Image & Systems Technician | Cinehive Web Technologies** *(May 2018 – May 2019)*
  - Administered high-capacity digital storage arrays, high-throughput video transcoding clusters, and scheduled archive restorations.
- **IT Consultant | Reliance Digital Retail Ltd** *(Oct 2017 – Apr 2018)*
  - Oversaw IT retail hardware asset lifecycle, vendor warranty contracts, point-of-sale terminal reliability, and weekly executive status reporting.
